

Tech Delivery Partners (TDP) is a federal-aligned IT services firm based in the United States, offering deep expertise in technical staffing, program delivery, and digital transformation. With decades of combined experience across cloud, cybersecurity, and PMO leadership, our team equips government agencies, federal contractors, and mission-driven organizations with the right talent and execution strategies to accelerate performance. We specialize in C2C staffing, turnkey task order delivery, and remote program support – all designed to meet the pace and compliance requirements of public sector IT initiatives.

CORE COMPETENCIES

Tech Delivery Partners (TDP) delivers high-impact IT solutions and staffing support tailored for the federal landscape. We specialize in:

- **Remote PMO & Program Management:** Agile, cost-effective leadership across digital transformation, modernization, and governance projects
- **Cloud & DevSecOps Delivery:** Secure cloud implementation (AWS, Azure) with integrated DevOps, CI/CD, and infrastructure-as-code practices
- **Cybersecurity & Compliance:** Alignment with NIST, FedRAMP, and Zero Trust frameworks to protect mission-critical systems
- **C2C Technical Staffing:** Pre-vetted engineers, developers, architects, and project leads available for short- or long-term task orders
- **Task Order Execution:** Reliable, compliant delivery support for agencies and primes needing fast-moving, scalable execution teams
